For a Better World

Last August, I had a privilege to help out a friend who was undergoing a health crisis. Without an insurance, she had no financial backup to pay for her surgery and other medical expenses. The tango community in New York, held a benefit milonga to help her financial situation. The eternal tango orchestra and guest Pablo Ziegler donated their music and time at this event. In the middle of this event, few people gave short speeches about her situation. On behalf of the musicians, I gave a short speech about her and about taking small steps towards a better world - saving energy and the environment. Since that speech, many people came up to me and mentioned how they changed their regular light bulbs to the energy-saving light bulbs around the house and etc. I was shocked to realize how influential the speech was. That is why I want you know it only takes a small thing to change something big if we all start doing it today. Please visit hectordelcurto.com/forabetterworld.html to read a great article I found on web about saving energy. The friend who inspired me to start this is no longer with us. I would like to dedicate this article to her.

Eternal Tango Recording coming out soon

We have been working very hard on our Eternal Tango's debut album. The CD will include Eternal Tango Orchestra's favorites such as "A mis viejos", "El Abrojito", "A Evaristo Carriego", "Los Magos" and other great new pieces. We are aiming to release it early 2007. We will keep you posted for the release of our CD.
